

Oregon® 400t

Part Number: 010-00697-02

Get in touch with your wild side with Oregon 400t. This next-generation handheld features a rugged, touchscreen along with preloaded topographic maps, 3-D map view, a high-sensitivity receiver, barometric altimeter, electronic compass, microSD™ card slot, picture viewer and more. Even exchange tracks, waypoints, routes and geocaches wirelessly between similar units.

Touch and Go

Oregon 400t leads the way with a tough, 3-inch diagonal, sunlight-readable, color, touchscreen display. Its easy-to-use interface means you'll spend more time enjoying the outdoors and less time searching for information. Both durable and waterproof, Oregon 400t is built to withstand the elements. Bumps, dust, dirt, humidity and water are no match for this rugged navigator.

Explore Backcountry in 3-D

Oregon's preloaded U.S. or European topographic maps, 3-D map view and a built-in worldwide basemap with shaded relief give you all the tools for serious climbing or hiking. Map detail includes national, state and local parks and forests, along with terrain contours, elevation information, trails, rivers, lakes and points of interest. Just in case you're wondering how steep that hill really is, Oregon's 3-D map view helps you visualize your surroundings — giving you a better perspective of the elevation.

Share Wirelessly

With Oregon 400t you can share your waypoints, tracks, routes and geocaches wirelessly with other Oregon and Colorado users. Now you can send your favorite hike to your friend to enjoy or the location of a cache to find. Sharing data is easy. Just touch "send" to transfer your information to similar units.

Find Fun

Oregon 400t supports Geocaching.com GPX files for downloading geocaches and details straight to your unit. No more manually entering coordinates and paper print outs! Simply upload the GPX file to your unit and start hunting for caches. Show off photos of your excursions with Oregon's picture viewer. Slim and lightweight, Oregon is the perfect companion for all your outdoor pursuits.

Keep Your Fix

With its high-sensitivity, WAAS-enabled GPS receiver and HotFix™ satellite prediction, Oregon 400t locates your position quickly and precisely and maintains its GPS location even in heavy cover and deep canyons. The advantage is clear — whether you're in deep woods or just near tall buildings and trees, you can count on Oregon to help you find your way when you need it the most.

Get Your Bearings

Oregon 400t has a built-in electronic compass that provides bearing information even while you're standing still, and its barometric altimeter tracks changes in pressure to pinpoint your precise altitude. You can even use the altimeter to plot barometric pressure over time, which can help you keep an eye on changing weather conditions.

Add Maps

Conveniently plug in optional preloaded microSD cards for all your outdoor activities on land or water (see maps tab for compatible maps). Just insert a MapSource® card with detailed street maps, and Oregon provides turn-by-turn directions to your destination. Add detailed trail information by purchasing additional TOPO maps for national parks and more. With BlueChart® g2, you'll get everything you need for a great day on the water including depth contours, nav aids and harbors. The card slot is located inside the waterproof battery compartment, so you don't have to worry about getting it wet.

Oregon® 400t

Part Number: 010-00697-02

Physical & Performance:

Unit dimensions, WxHxD: 2.3" x 4.5" x 1.4" (5.8 x 11.4 x 3.5 cm)

Display size, WxH: 1.53"W x 2.55"H (3.8 x 6.3 cm); 3" diag (7.6 cm)

Display resolution, WxH: 240 x 400 pixels

Display type: Transflective color TFT touchscreen

Weight: 6.8 oz (192.7 g) with batteries

Battery: 2 AA batteries (not included); NiMH or Lithium recommended

Battery life: 16 hours

Waterproof: yes (IPX7)

Floats: no

High-sensitivity receiver: yes

Interface: USB and NMEA 0183 compatible

RoHS version available: yes

Maps & Memory:

Basemap: yes

Preloaded maps: yes (topographic)
