

Rotary Laser Detectors

Electronic

Locate your laser beam in bright light or over long distances. These rotary laser detectors can be used with any rotating visible or invisible laser on the market. Rugged cases are gasket sealed for waterproof protection (IPX-4). One 9-Volt battery provides up to three months of normal use.

Features:

- Memory feature preserves last position of beam if the unit is moved out of the plane of light
- Three distinct tones (high, on-grade, and low) assist targeting from a distance
- Auto shut-off after six minutes of inactivity saves batteries
- Built-in filtering for bright sunlight and electromagnetic interference

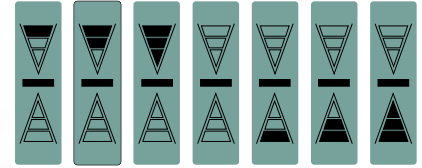

LD400 and LD120 is Equipped with Dual Sided LCD Display (Back View)

LD400

Dual-Sided LCD Electronic Laser Detector with Heavy Duty Rod Clamp

The LD400 features seven channels of information indicating the position of the detector in the plane of laser light.

LD-400

Universal Rotary Laser Detector features front and back LCD displays, three levels of beam resolution, and three levels of speaker volume. Includes heavy duty rod clamp.
