

Berger Speed Series Levels & Transit-Levels

Berger has been building quality, reliability, and value into their instruments since 1871. One year warranty.

Features:

- Built-in sunshade
- Large coated achromatic lens
- Rubber eyepiece cap
- 4ft. (1.2m) short focus
- High precision glass level vials
- Dust protected eyepiece with fixed cross hairs
- Powder coated safety yellow paint
- Includes custom hard-shell carrying case, plumb bob (not included with Econo Line), and manual.

Magnum Line

These units are for the serious builder or contractor who requires greater accuracy. These instruments are designed with a heavy-duty dome shaped head that holds a double ball bearing center, giving the user 5 minute readouts. Model 300B has a 1° vertical arc and two leveling vials. Units have a 3-1/2" x 8 thread. Both models provide 1/8" accuracy at 100' (3mm at 30m) with a 250' (76m) working range.

54-300B

54-300B Model 300B Transit-Level Only

Magnum Line with Laser Plummet

These units eliminate the need for a plumb bob for fast and easy setup over a point. Instrument features are similar to 54-300B, plus 5/8" x 11 tripod thread, and three leveling screws. Laser plummet features a bright 635nm diode (Class II) with 3 element glass lens. Laser dot diameter is ≤ 2mm @ 2m (6'). Ten minute sensitivity provides ±1mm plumbing accuracy.

54-300LP

54-300LP Model 300LP Level with Laser Plummet

Level & Transit-Level Kits

Level and transit-level kits include the instrument with case and accessories, an aluminum quick clamp tripod, and a telescoping aluminum rod available in several lengths and graduations. ALL Kits include aluminum tripod (60-ALQCI21) and 8-ft leveling rod (06-808C).

Berger Optical Levels and Transit-Levels

Model #	Magnification	Leveling Accuracy @ 75 ft.	Horizontal Angle	Vertical Angle	Working Range
135	20X	1/4"	n/a	n/a	up to 200 ft.
136	20X	1/4"	n/a	n/a	up to 200 ft.
140B	20X	1/4"	n/a	n/a	up to 200 ft.
190B	20X	1/4"	15'	n/a	up to 200 ft.
200B	20X	1/4"	15'	1°	up to 200 ft.
300B • 300LP	22X	1/8"	5'	1°	up to 250 ft.

Berger Transit-Level Instruments

Top quality products for over 130 years.

Speed Line-20X Power

Our most popular models, with rough angle turning and fine tuning adjustments. Also, the leveling base now has three leveling screws, the same as most automatic levels and lasers. Clamps and tangents bring your instrument quickly on target. 15 minute horizontal circle on both models and 1° vertical arc on 200B allow you to set rough angles. Units have a 5/8-11 thread. Provide 1/4" accuracy at 100' (6mm at 30m) with a 200' (61m) working range.

- 54-140B Model 140 Transit-Level, Horizontal Circle
- 54-190B Model 190B Level Only, Horizontal Circle
- 54-200B Model 200B Transit-Level, Horizontal Circle, Vertical Arc

200B	20X	1/4"	15'	1°	up to 200 ft.

Model 136
(Available Only as a kit)

54-135B

Econo Line

Fast set-up, simple to use. Model 135 is designed strictly for leveling, and Model 136 is used for leveling and plumbing. Econo Line instruments have no circles or vertical arc. Units have a 1/2" x 20 thread. Both models provide 1/4" accuracy at 100' (6mm at 30m) with a 200' (61m) working range.
