

PLS Hand-Held Lasers

Quality layout tools for the professional contractor

We are dedicated to designing carrier laser tools for a lifetime of increased productivity and profit. Fast, accurate and portable, PLS lasers save time and money when your bubble vial level or rotary laser is too limited or too cumbersome to do the job. PLS hand-helds can handle all of your level needs.

- Compact, accurate, durable
- Easy-to-use, one-button efficiency
- Working range of 100 ft
- Bright reference points – clearly visible indoors and outdoors
- Built to withstand tough jobsite conditions

PLS3 tool

Projects three beams: up and down to create a plumb up/plumb down reference, and horizontally to create a level reference.

- Packages include:
- PLS 3 tool

PLS5 tool

Provides point-to-point alignment formation. Lay out reference points faster than traditional methods. Simultaneous plumb level and square.

- Packages include:
- PLS 5 tool

PLS5X tool

The PLS5X is designed for fast and accurate layout of control points and lines in outdoor conditions. Gives plumb, level and square in bright sunlight when used with the optional PLS-5XD laser detector.

- Packages include:
- PLS5X tool
 - PLS5X System: includes PLS-5XD detector and carrying case

PLS90 tool

Self-leveling 90° layout tool. Includes universal base-tripod adapter, carrying case, floor target and operating manual.

- Packages include:
- PLS90 tool
 - PLS90 System: includes the PLS SLD detector
 - PLS90 Kit: includes the PLS SLD detector and 5/8-11 tripod

PLS180 tool

Laser line tool, self-leveling for plumb, level and square. Includes magnetic wall bracket, pouch, operating manual and carrying case.

- Packages include:
- PLS180 tool
 - PLS180 System: includes the PLS SLD laser detector and carrying case
