

CUT RESISTANT GLOVES

North has developed a complete line of Kevlar® gloves that includes everything from a 100% Kevlar® lightweight and heavy weight to cost effective plated gloves medium weight. We have also added to the offering, a medium and heavy weight Kevlar® glove with a long cuff, and PVC dots and thumb swipes on both sides, in order to give the user better grip and wear life. We have also included a full range of hot mill gloves made with an outer shell of Kevlar and cotton for cuts/shire protection and an inner shell of cotton/acrylic for insulation and users comfort. North's Hot Mill (H.M.) glove with wide cuff available in two styles one of those is covered with the famous "N" North nitrile coating to improve grip and abrasion resistance. We also offer the heavy double layer H.M. glove in gauntlet version of 13" (33 cm) and 15.5" (40 cm) as well as a plated Kevlar glove with leather palm for long life use.

KEVLAR® GLOVES

NORTH KEVLAR® SERIES*

KNITTED KEVLAR® GLOVES

62/6703

62/6607

62/6707

62/6705

Features/Benefits

- Knit construction provides superior comfort (no seams for chafing) and less hand fatigue
- Machine wash or dry clean. Permits easy recycling for longer life and maximum value with minimal shrinkage
- Ambidextrous design gives wearer four sides instead of two to further enhance value and requires no sorting after recycling
- Plated design offers economical alternative
- Variety of styles and weights to fit your needs
