Backpack Fertilizer System

The Backpack Fertilizer System is water-resistant, tear-resistant, and lightweight. The heavy-duty Cordura™ pouch holds up to 45 lbs. of fertilizer. Utilizing a gravity-drawn system, the fertilizer is drawn through a flexible hose to a trough. The trough remains continually full but will not overflow. When not in use, simply attach it to the frame or a belt loop. Lightweight, durable composite frame resists corrosion. Filling is easy. A stabilizer bar keeps the fertilizer pouch open and taut. The weather flap secures over the pouch opening, preventing exposure to wind and rain. Designed for comfort, the 2 1/2"-wide shoulder harness is fully padded. A 5" waist belt provides additional support and evenly distributes the load. All straps adjust and have quick-release clasps.
