

FELCO 800 — 810 Battery Powered Pruning Shears

Powerful, light, ergonomic, these high-tech tools combine FELCO's unmatched know-how with the latest research of portable electric pruning shears.

- Cutting head responds immediately to the movement of the trigger.
- Protective frame around the anvil blade keeps debris out of the mechanism chamber of the shear head.
- Factory trained after sale service staff and all spare parts available.
- Battery charge indicator window shows remaining charge level in percentage.
- Average duration of use without recharging battery is one full day. Recharging time is 5 hours.
- High-tech lithium-ion battery pack with optimum performance between 23F (-5C) and 86F (30C)
- Weight of shear 29 oz. (820 g)
- Weight of battery 4 lbs. (1800 g)

FELCO 800

Cutting capacity 1.2 in. (30 mm) available in Right or Left-Handed Version.

FELCO 810

Cutting Capacity 1.5 in. (35 mm) available in Right-Handed Version only.

FELCO 800M - Shear head developed in collaboration with sheep and goat breeders for hoof clipping.

FELCO 800

Available in Right
or Left-Handed Version

FELCO 810

Available in
Right-Handed Version

IMPORTANT NOTICE - The US Department of Transport has determined that the lithium-ion battery 12X12 cells pack is classified *Dangerous Goods: UN 3091, Class 9 Packaging Group 2* and for transportation purposes must be packed in compliance with the standards in force. If for any reason the battery must be shipped back to us, please contact your local carrier for more information.

Pneumatic Pruning Shears

Simply the best pneumatic pruning shear in the world.

FELCOmatic F-70 & F-73

FELCOmatic pneumatic pruning shears are strongly made, but light and handy to assure work without fatigue.

The powerful cut, developed by FELCO double piston system, makes cutting large branches easy.

Precision adjustment of blades — nut blocked through locking segment — ensures clean cut.

Cutting head can be turned to suit your requirement.

Safety catch keeps the blades closed.

All spare parts are easily replaceable.

FELCOmatic pneumatic shears work on a pressure of 100 p.s.i. for medium cutting capacity to 210 p.s.i. for large cutting capacity. 7 to 15 bars.

Capacity of compressor 1 1/4 to 2 cubic ft/min.
35 to 60 litre/min.

FELCOmatic F-70 Standard version

FELCOmatic F-73 "Progressive"

Except for modification of the air admission valve this pruner is the same as the F-70 standard version. The speed of the blade closure corresponds to the amount of pressure applied by the operator to the activating trigger.

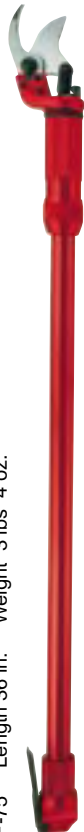

Length 10 1/4 in. (26 cm) Weight 1 1/2 lb. (710 g)

F-77 Length 72 in. Weight 4 lbs 15 oz.

F-76 Length 60 in. Weight 4 lbs 5.8 oz.

F-75 Length 36 in. Weight 3 lbs 4 oz.
