

Commercial Tree Pruners

Model No. 11-18

- 1" diameter cutting capacity
- Chain-operated pruner head
- Malleable iron casting with center cut action
- Three 6' by 1-1/4" diameter fiberglass poles
- Operating rope included

Model No. 20-18

- Durable cast aluminum saw head (Model No. 20)
- 16" curved saw blade with nonstick coating
- Three 6' by 1-1/4" diameter fiberglass poles
- Hook for pulling down cut branches
- Paint brush holder

Pruner Heads

Model No. 507

- Heavy-duty cast aluminum heads
- 16" curved saw blade with nonstick coating

Model No. 11

- Chain-Operated Pruner Head
- 1" diameter cutting capacity
- Malleable iron casting with center cut action
- For use with 1-1/4" diameter poles (Model No. 202 and 203)

Model No. 20

- Cast Aluminum Saw Head
- 16" curved saw blade with nonstick coating
- Hook for pulling down cut branches
- Paint brush holder
- For use with 1-1/4" diameter poles (Model Nos. 102 and 103)

Model No. 2011

- Combination pruner and saw
- 1" diameter cutting capacity
- Consists of No. 11 head and No. 2011B saw blade with nonstick coating
- For use with 1-1/4" diameter poles (Model Nos. 102 and 103)

Replacement Blades

Model No. 502

- 16" replacement blade with nonstick coating for 507 and 570 pruning saw and Vermont American pruning saws

Model No. 2011B

- 16" replacement blade with nonstick coating or No. 2011 head
- For 312T, 333SW, 333BS, 333S, 34S-15 and 34S-10 tree pruners

Model No. 20B

- 16" replacement pruning saw blade with nonstick coating for No. 20 head

Extension Poles

Model No. 103

- Extension Pole
- 6' fiberglass head section pole
- 1-1/4" diameter
- For use with Model Nos. 102, 103, or 3FG
- Includes snap connectors-both ends for head poles and other extension poles

Model No. 3FG

- 5-3/8" Pole Adapter to mount head pole to
- For use with Model Nos. 11, 20, or 2011 heads
- Connects to model nos. 103 or 106FG poles

Model No. 102

- Head Extension Pole
- 5-3/4' fiberglass head section pole
- 1-1/4" diameter
- For use with Model Nos. 11, 20, or 2011 heads
- Includes snap connectors for extension poles

HomeOwner tree Pruners

Gear Driven

Model No. 418TCS

- Fiberglass poles telescope from 6' to 18'
- Gear driven action and dual pulley system triples cutting power
- 1-1/4" diameter cutting capacity
- Heavy-duty solid steel head
- Hardened and tempered steel lopper blade
- 16" curved saw with nonstick coating
- Poles securely lock with convenient thumb screw
- 13' 6" solid braid polyester cord
- Fully assembled and ready for use

Gear Driven

Model No. 312TCS

- Fiberglass poles telescope from 6' to 12'
- Gear driven action and dual pulley system triples cutting power
- 1-1/4" diameter cutting capacity
- Heavy-duty solid steel head
- Hardened and tempered steel lopper blade
- 16" curved saw with nonstick coating
- Poles securely lock with convenient thumb screw
- 13' 6" solid braid polyester cord
- Fully assembled and ready for use

Standard

Model No. 333SW

- Fiberglass poles telescope from 6' to 12'
- 13'6" cord
- Multi-power dual pulley system for increased cutting power
- 1" diameter lopper cutting capacity
- Heavy-duty solid steel head
- 16" curved saw blade with nonstick coating
